

Education System and Its Future in America Conference

Session 7: Innovative Assessment Methods

This session will explore innovative assessment methods that go beyond traditional standardized testing. Participants will learn about alternative assessment strategies and their potential to provide a more comprehensive evaluation of student learning.

Presentation 1: Alternative Assessment Strategies

This presentation will introduce various alternative assessment strategies, such as portfolio assessments, performance-based assessments, and formative assessments. The benefits and challenges of these methods will be discussed.

Presenter: Dr. Susan Parker

Presentation 2: Implementing Project-Based Assessments

This presentation will focus on the implementation of project-based assessments in the classroom. Examples of successful project-based assessments will be shared, along with tips for designing and evaluating these assessments.

Presenter: Ms. Karen Lewis
