

Education System and Its Future in America Conference

Session 9: Parental Involvement in Education

This session will explore the crucial role of parental involvement in education. Participants will learn about effective strategies for engaging parents and fostering strong partnerships between schools and families.

Presentation 1: Strategies for Engaging Parents in Education

This presentation will provide an overview of strategies for increasing parental involvement in education. Successful programs and initiatives that have fostered strong parent-school partnerships will be highlighted.

Presenter: Dr. Jennifer Lee

Presentation 2: The Impact of Parental Involvement on Student Achievement

This presentation will discuss the positive impact of parental involvement on student achievement. Research findings and practical examples will be shared to illustrate the benefits of engaging parents in the educational process.

Presenter: Mr. Thomas Walker
